

## **Gathering for parents with Spiritual gifted children**

Moms/dads do you have a child who see or talks to fairies, Angels or other Spiritual Beings? Do they see or heard something/someone but can't understand it? Or what it means? Does it frighten them? Does it excite them?

Do you as a parent feel you would like to talk to other parents who are experiencing the same situations with their child? Then this is class is designed for you.

It's about bringing parents together, discussing the challenges of living with a child who has this spiritual ability. It's about asking questions & receiving answers. It's for getting & giving advise dealing with these abilities. It's for peace of mind knowing you're not alone. It's about being able to help your child understand and validate what's happening in hers or his life. And it's to help come to terms with the realization this is a normal way of life for many others—not just for your child or you.

Since there is no one way which works for all, shared experiences, tips, advise and encouragement is the key element and purpose of this class. When you realized there's support out there, it becomes easier and easier to find solutions which best works for you and your child.
