

## LOVE-YOUR-LIFE...

Naming our Gifts (Spiritual Gifts)

...especially ones we hide

A great teacher and miracle worker, who many call *the Master*, once said that we would do all these amazing things, and greater. I believe that.

There are many 'gifted' among us. And many hide their gifts, because the *gifted*, especially women who are gifted -- *psychics, healers, intuitives, light workers* of all kinds -- have often invoked fear, instead of honor, acceptance, and respect. Some thought they were 'crazy' and others were medicated, or self-medicated--with alcohol or other drugs--because their *knowing*, their way of *being different* perhaps, was not recognized as a *gift of the spirit*.

Some think those great 'healer', 'intuitive,' 'psychic' gifts happened only two thousand-some years ago. Really?

This class will put a modern-day lens on those familiar *Gifts of the Spirit*. ... especially the ones that got *skipped over* a lot.

Those get the spotlight, so we can get a better look at them.

You can listen with different ears; see with different eyes-- much more aware and knowing, grown-up eyes.

We can bridge the old and the now...

Are **you** one of those gifted ones? Or suspect you might be?

**Is your son or daughter** spiritual-gifted, or someone close to you?

Come. You're not alone. There are many others.

And spiritual gifts, if our spirit came here to use them, don't go away easily.

They just hide for awhile, until it's *safe* to come out. ... or when it's *time*.

You're welcome here. This class will keep it simple, help you name your gifts, and love your life.
